Everything about the experience was super. Easy to find the building in Waikiki, parking that is validated and best of all the wonderful massages we got. We felt light as air when we left. Definitely recommend Sukotai.

I went there expecting less as not to get my hopes up. But Thanny was great! She gave me a full body massage, added in the hot stone therapy which I never had & then stretched me out. I felt renewed! Will return!

It is nice decor, but nowhere near as nice as other places here on Oahu. The rooms are too cold for massage, and they only partly validate parking.

Absolutely, positively the BEST massage I have EVER had in my life!!! Everything about it was top notch; the experience of the therapists, the ambiance of the spa and even validated parking!! One thing they should change is to add the "h" in their name, so that it reads "SukotHai". This way people will understand it is a Thai Massage, which is SO special and unusual.

I thought the massage was horrible, the lady giving my massage did NOT know what she was doing and kept having to leave the room. I felt like I was an inconvenience and I was constantly having to tell her to stop because the massage was more painful than relaxing. It has been 2 days since my massage and I'm still in pain from the "massage". I will NOT recommend this massage or place to ANYONE.

Accessibility to Sukotai Massage 1 is outstanding, with validated parking, in an easy to find, safe parking deck. The massage salon was extremely serene, private, and the massage rooms are spacious, immaculate, and very tranquil. The massage itself was outstanding! The masseuse was well trained, and very professional, and the hot stone treatment was by far one of the best massage experiences I have ever had! Thank you!

The ladies working on my husband and I were very pleasant and nice. We had just come back from a triathlon so they allowed us to grab a bite to eat and use their showers before the massage. They were wonderful and very friendly. However, we were never asked about our medical history, medications, areas that required more massage, areas not to touch etc. My husband and I liked the combination of both a Swedish and hot stone massage but my husband and I thought it was a bit painful. We did voice it when they started and let them know that it was a bit rough, it was less painful but today I am not able to turn to the left and look over my shoulder without screaming in pain. Not sure why. The rest of body feels good by my neck is killing me. Thanks for sending this e-mail and allowing the feedback.

the staff was very nice and meant well, but the business was mediocre, at best, in terms of professionalism. the quality of the massages were fine, but the talking and the constant door opening and closing...the bright lights and the chilly air conditioner. i'm sorry if my rating is deceiving, but i think the business overall is good, but there is some fine-tuning needed.

The massage was great and therapeutic as well. I have chronic neck and shoulder problems and the massage therapist was able to get in there and work out the knots. The hot towel treatment at the end of the session was an unexpected touch and left me feeling clean and not greasy. There were occasional interruptions from the front desk, resulting in my therapist leaving the room which took away from what would have been an excellent professional experience.

Not worth \$50, more like a \$25 massage. When I arrived I wasn't on the appointment book and had to wait for someone to come in to do the massage. Also the massage liquid used was sticky so as soon as I got home I had to shower. NOT relaxing at all!
